1. Cosmetic or dermatological preparations which are finely disperse water-in-oil systems comprising
1. an oil phase,
 2. a water phase,
 3. at least one modified phyllosilicate which exhibits both hydrophilic and lipophilic properties and positions itself at the water/oil interface and
 4. at most 0.5% by weight of one or more emulsifiers.

Please substitute claims 3 and 4 with amended claims 3 and 4.

3. Preparations according to claim 1, wherein the further cosmetic or pharmaceutical auxiliaries, additives and/or active ingredients are present.
4. Preparations according to claim 1, wherein the content of one or more modified phyllosilicates is between 0.05% by weight and 10% by weight based on the total weight of the preparations.

Please cancel claim 5-8.

Please add claims 9-16.

9. Preparations according to claim 1, wherein in addition to one or more modified phyllosilicates, further pigments are present wherein said further pigments are selected from the group consisting of modified polysaccharides, microfine polymer particles, micronized inorganic pigments and mixtures thereof.
10. The preparation of claim 9, wherein said micronized inorganic pigments are amphiphilic metal oxides.

11. The preparation of claim 10, wherein said amphiphilic metal oxides are selected from the group consisting of titanium dioxide, zinc oxide, iron oxides, iron mixed oxides, silicon dioxide, silicates and mixtures thereof.
12. Preparation according to claim 3, wherein said further cosmetic or pharmaceutical auxiliaries, additives and/or active ingredients are UV filter substances.
13. Preparation according to claim 12, wherein said UV filter substances are unsymmetrically substituted s-triazine derivatives selected from the group consisting of 2,4-bis{[4-(2-ethylhexyloxy)-2-hydroxy]phenyl}-6-(4-methoxyphenyl)-1,3,5-triazine and dioctylbutylamidotriazone.
14. Preparation according to claim 3 wherein said further cosmetic or pharmaceutical auxiliaries, additives and/or active ingredients are sulfonated UV filters selected from the group consisting of phenylene-1,4-bis(2-benzimidazolyl)-3,3'-5,5'-tetrasulfonic acid and its salts; benzene-1,4-di(2-oxo-3-bornylidenemethyl-10-sulfonic acid) and its salts; 3-phenylbenzimidazole-5-sulfonic acid and its salts; and sulfonic acid derivatives of 3-benzylidenecamphor and salts thereof.
15. Preparations according to claim 1 further comprising one or more additives or active ingredients selected from the group consisting of astringents, antimicrobially active substances and substances effective against acne.
16. Preparations according to claim 4, wherein the content of one or more modified phyllosilicates is between 0.1% by weight and 2% by weight based on the total weight of the preparations.
